LAMINATES, REINVENTED

ABOUT US

"First impression is the last impression." Inspired by this principal rule of the interior design industry, Durian started its state-of-the-art factory for the manufacturing of Decorative High-Pressure Laminates in Feb 2006. Along with Decorative High Pressure Laminates, our factory is also equipped to produce Metal Foil Laminates, Abrasion-Resistant Laminates, Exterior Laminates, Anti-Scratch Laminates, Anti-Fingerprint Laminates, Anti-Fungus Laminates, Post Formable Laminates, Digital Printed Laminates, and Door Skins to name a few.

Keeping quality in mind, the factory is certified for ISI 2046, ISO 9001, and ISO 14001. We also adhere to British European Standards (BS EN 438) and NEMA Standards (ANSI/NEMA LD 3). We have also incorporated a 7-point Quality Control System to ensure that every one of our laminate sheets goes through seven quality control checkpoints during its production period. This system guarantees that only the highest-quality products are made available to our valuable customers.

To further guarantee the quality of our finished product, we take extreme care in sourcing raw materials of the highest quality. Our raw materials are acquired from industry leaders worldwide, including countries such as the USA, Italy, France, Germany, Belgium, Japan, and Malaysia.

Our factory is also equipped with a state-of-the-art chemical plant that manufactures resins used in the production of laminates. Having a modern plant allows our R&D team to experiment with innovative materials to produce quality resins that will stand the test of time. As a result, we are the only brand in India to offer BFT (Borer, Fungus, and Termite) Guard in our laminates.

The company understands the importance of technology, both in terms of the machinery used and also concerning the processes that enable the optimal working of the company. As a result, we have acquired quality equipment and implemented innovative processes, enabling us to supply our products to markets throughout India and countries in Europe, South-East Asia, and the Middle East.

Due to our stringent 7-point quality check and high service standards, we were able to triple the initial production capacity in less than 4 years. Our current National network consists of over 200 Distributorships and over 40,000+ Authorized Dealers. To meet the ever-increasing demand for our products, we have increased our monthly production capacity to over 6,00,000 sheets with the installation of our 6th production line.
